Ready in five minutes — getting started with Pi Network

New to Pi Network?

1

Install the app

Search "Pi Network" on the App Store or Google Play and install it.

2

Sign up

Sign up with a phone number or Facebook. Enter a referral code in the invitation code field. **A referral code is required to sign up.**

3

KYC verification

Verify your identity with a photo ID in the app's Pi KYC menu (required for listing).

Apply **5–10 min**
Approval **usually 2 days–2 weeks**

New accounts can apply after 30 days of mining. Unclear documents can add several weeks, so start early.

4

Install Pi Browser

Install the "Pi Browser" app when prompted. OpenBrew runs inside this browser.

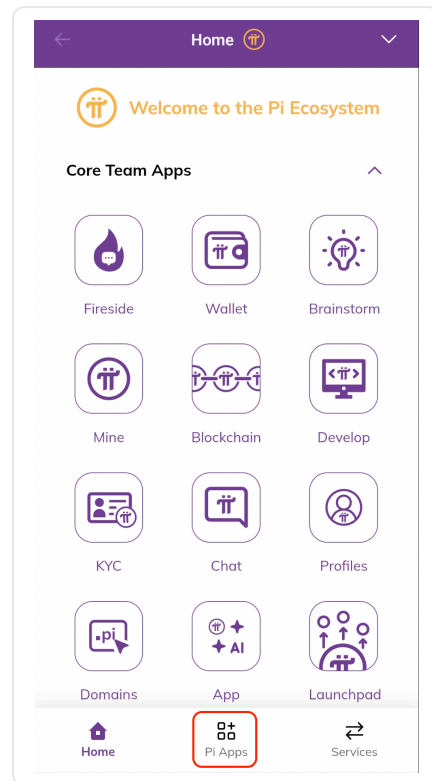

Pi Network is a free cryptocurrency network mined on a smartphone. Signing up and mining are both free.

① Opening OpenBrew — screen by screen

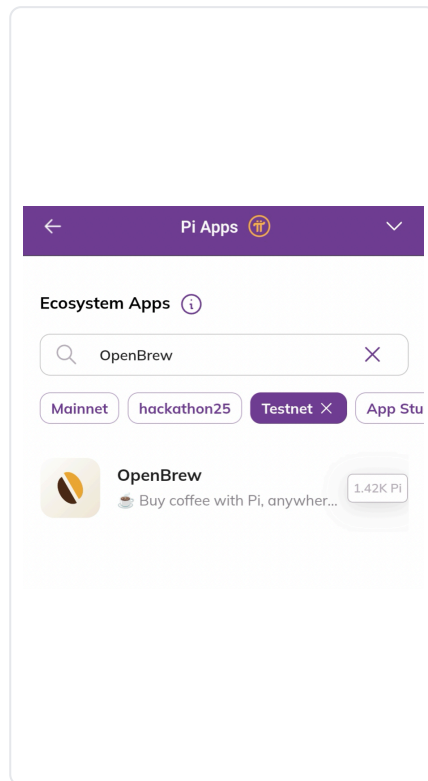

From Pi Browser to the registration form

1 Pi Apps tab

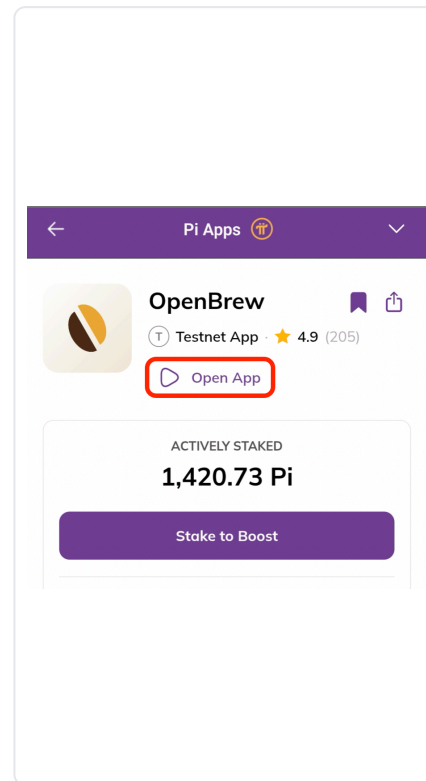

Tap Pi Apps at the bottom of Pi Browser.

2 Search OpenBrew

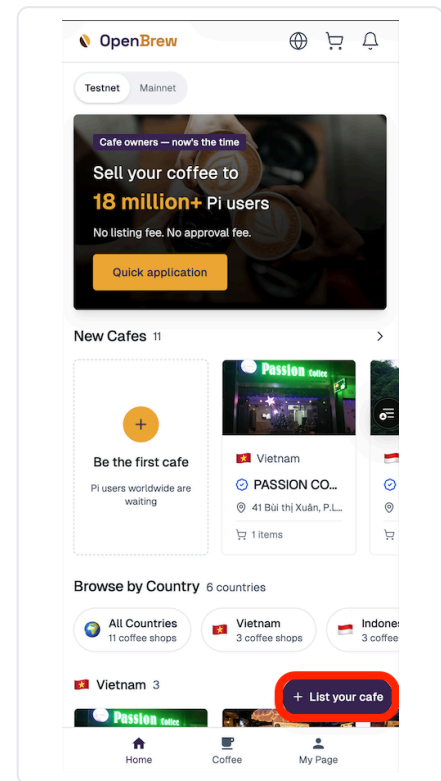

Type OpenBrew in the search bar, then pick the Testnet filter.

3 Open App

Tap Open App on the app detail page.

4 List your cafe

Use the button at the bottom right of Home to open the form.

That opens the **Add New Cafe** screen. The next page covers the form and approval.

② Fill in the form and request approval

Add New Cafe screen · about 10 minutes

- 5 Fill the fields in order**
Only starred (*) fields are required. The progress bar at the top shows what is left.
- 6 Upload cafe photos**
Up to 10 photos. Shoot the real place inside and out from several angles. The first photo becomes the cover image.
- 7 Add menu items**
At least one item. Enter the name and the price in Pi. Menu photos lift order rates.
- 8 Request approval**
Submit "Request approval" and we email the result within 24 hours. Your cafe goes live worldwide as soon as it is approved.

What happens when an order comes in

Order management flow

Change the status with one tap in My page > "Orders received"

Payment methods

In-app order payment

Customers add items and pay in Pi. 0% fee, the full order amount settles to you.

In-store QR payment

Walk-in customers scan the QR, enter the amount, and pay on the spot.

Funds land straight in your wallet without passing through the app. **Note that no order record is kept in the app.**

0%

Transaction fee

The full order amount goes to your cafe

During the current Testnet phase, in-store payments may go straight from the customer's wallet to yours. The app takes no part in the payment.
